

Indian Crest Middle School Calculator Sale

Have you purchased a calculator for math class this year yet? If not, your math teachers at Indian Crest Middle School would like you to consider purchasing a TI-30XS Multi-View calculator (\$15.00) through the school.

Features of the Texas Instruments TI-30XS Multi-View Scientific Calculator:

- Previous Entry - Lets you review previous entries and look for patterns.
- Menus - Easy to read and navigate pull-down menus similar to those on a graphing calculator. All mode settings are located in one central place, the mode screen.
- Fraction features - View and perform fraction computations and explorations in familiar textbook format.
- Scientific Notation Output - View scientific notation with the proper superscripted exponents and see the output in scientific notation.
- Table feature - Easily explore an (x, y) table of values for a given function, automatically or by entering specific x values.

This calculator sale is completely optional. This is not the only calculator which can be used in your math class. *However, your math teacher does feel that this calculator is a good fit for middle school math students of all abilities and can be used on standardized tests throughout middle school and into high school.* The "math type" display and the fraction capability of these calculators make them very useful. Indian Crest is able to purchase a bulk quantity of TI-30's at a lower price and is passing the savings on to you!

The cost of the calculator is \$15.00.

If paying by check, please bring payment and order form below in an envelope to your child's math teacher. Make the check payable to **Indian Crest Middle School**. You also have the option of ordering online with a credit card. Go to Indian Crest's website, click the **PAY ONLINE** icon. ***All orders need to be received by your math teacher by September 13, 2019.***
